# ROCKBULL

The second-largest jobsite radio available on the market:  
perfect for large indoor and outdoor spaces, including  
warehouses, barns, streets and building shells.

[WWW.PERFECTPRO.EU](http://WWW.PERFECTPRO.EU)

# Our mobile HiFi stereo system.

With two heavy-duty woofers, it's both a traditional boombox and a stereo system combined in a single jobsite radio design, featuring a lithium battery that doesn't quit.

## FM RADIO

### FM RADIO

FM radio is here to stay! Whereas DAB+ radio reception can be tricky in large buildings or remote areas, there's always good old FM to back you up. Problem solved – as all our radios have FM capabilities.

### DAB+

The genuine 21st-century digital radio, as clear as a bell and as user-friendly as it gets. If there's no coverage, you can simply switch to trusty old FM.

### USB

Download your favourite playlists to a USB stick and play them directly on your radio. This means no fiddling around with phones or other devices when you simply want to listen to your favourite playlists.

### AUX IN

Need a break from radio? All you need is a basic audio cable to connect any device with a headphone jack and play it on your PerfectPro radio.

### POWERBANK

Our radios are equipped with strong batteries which can double as power banks with 5V/1.2A output. Connect the phone to the USB port and it will be charged in no time.

### BLUETOOTH

Transform your radio into a high-quality Bluetooth speaker and listen to your own audio thanks to the Bluetooth interface. You can play anything from your computer or phone directly on your radio.

Long, wireless  
playtime and a  
high power output
